Rack-All PCB Handling Trays

Measures 7" x 20" x 1", made of reinforced polypropylene, with 21 slots .125" x .325" at .75" pitch. Conductive tray meets MIL spec MIL-B-81705B.

- No. FAN-RA-20CP Black Conductive Rack-All.....\$20.00
- No. FAN-RA-20AP-R Red Non-Conductive Rack-All.....\$15.00

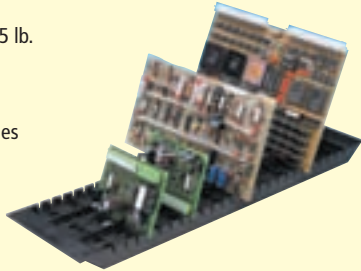

Rack-All

- Measures 6" x 18" and weighs .5 lb.
- 25 slots w/parallel sides for more rigid holding measure .125" x .300" on a .625" pitch
- Undercut ends for carrying handles

Standard Conductive (185°F) Rack-All

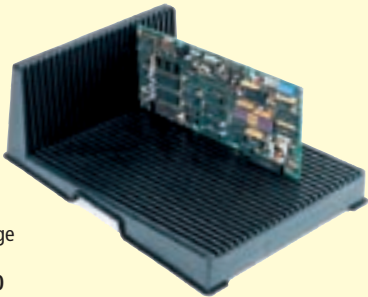

- No. FAN-RA-18C\$16.20
- Shallow Narrow Slot Rack-All
- No. FAN-RA-18C/SMT ..\$16.20

Angle Rak

Holds different size boards on two sides for increased security. Lightweight and holds boards inside a continuous slot rather than a lip. Measures 14" x 10" x 5". 25 slots measure .100" x .187" on a .400" pitch. Vertically stackable when not in use. Also has drainage holes for use in degreasing.

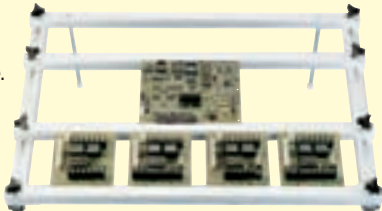

- No. FAN-PCBH2L-C\$21.00

MFM24 Board Assembly Station

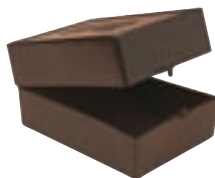

Rigid, lightweight and portable. Designed for multiple printed circuit board assembly. Holds up to three rows of boards for ESD safety and comes with two Fancort Combo-Slide adjustable rails with a maximum board capacity of 24" in length by 14" in width. Three tier style assembly station features a 22 degree incline for easy viewing of work surface. Track can be positioned in three ways: open slot up to hold boards firmly in place, open slot down so boards will rest in the groove for ease of movement, or combination of the two.

Totes and Bins

Gray tote boxes are impact resistant, durable with a high chemical resistivity. Dissipative tote boxes are patented static dissipative polypropylene-base material. Not affected by excessive handling or long-term storage, acceptable for clean room applications. Surface resistivity of more than 10⁵ ohms/sq. and less than 10¹² ohm/sq. Standard color is blue.

Conductive tote boxes are a polypropylene-base material which contains a carbon additive to provide an electrically conductive path through the material. Surface resistivity of less than 10⁵ ohm/sq. Standard color is black. \$5.00 fee on broken packs.

Cart Systems

These versatile cart systems are designed to provide safe, reliable, and durable protection for your parts in process. Available in a complete range of styles, finishes and accessories, units are easy to assemble and easy to clean.

Benchside Tote Cart

Lets you position bins, totes, cartons, boxes, or sub-assemblies at an appropriate angle for repetitive pick and place operations. Each unit comes with a 45° slanted top shelf, standard Super Erecta® shelf on bottom, two brake casters, aluminum split sleeves, and a drag chain for static dissipation. **Bins sold separately.**

18" x 24" Benchside Tote Cart
No. INT-EBC313BBR-DS\$404.50

Surface Mount Reel Shelves

Provide efficient storage and transport for 7", 13" and 15" surface mount component reels. Posts are fitted with adjustable leveling bolts to compensate for uneven surfaces, and fit both Super Erecta® and Super Adjustable Super Erecta® Shelves. Posts are grooved at 1" increments, numbered at 2" increments, and double grooved every 8" for easy spacing identification.

Not sold as a whole unit.
All parts sold separately.

Universal PCB Truck

A complete PCB handling and storage system with the flexibility to adapt to your needs. The unique design of the conductive polymer CBX panel allows board transport and storage in horizontal, vertical or slanted positions. Horizontal slots are 1/8" deep on 1/2" centers, slanted slots are spaced 1" apart, vertical capture utilizes an optional vertical hold panel kit. Each cart contains 4 posts, 4 poly casters (2 brake, 2 swivel), 1 chrome wire bottom shelf, 2 CBX panels, drag cable.

No. INT-CBX515EC-DS\$1579.50

Chrome Utility Cart

A durable and dependable transport solution that's easy to maneuver. Highly rigid Super Erecta® construction allows you to easily adjust shelves at 1" increments. 5" light duty casters.

24" x 36"
No. INT-MW611-DS\$351.00

Open Starsys™ Mobile Shelving

Moveable storage system is easily reconfigured as needed. Pull-out shelves provide safe, comfortable access to products. Shells include top and bottom wire shelves, posts with slotted inserts, and extended base with 5" swivel and brake casters. Stationary or full extension style shelves can be installed at any location on a post at 1" increments. Stationary shelves include mounting clips. Extension shelves include one pair of shelf slides with a right-hand lock button to prevent shelf movement while mobile.
